Planning a Covenant Before an
Opposing Force Will Not

LONDON, Oct. 9.—The government tonight issued a report on the conference which Labor deputations had with Premier Lloyd George on September 26 to keep him from attacking the prime minister's "stop the war" protest, the report indicated, devoted its speech mainly to proving that the government policy had been identified with that of the advanced section of the labor party—namely, maintenance of the free dominion of the straits under control of the League of Nations and that the subject population of Anatolia would remain under control of the Turks. But he repeated that it was impossible because the United States, France and Italy had decided to unite against the Turks in mandates in those regions.

Back to 1914.—The prime minister argued that under the Angora plan the position of the Allies in the straits was the same as in 1914, when the Turks closed the straits; therefore, even control by the League of Nations could not be effective unless an adequate force was planted there by the League to enforce the straits convention, he insisted.

He commented that the Kemalist government had agreed to do nothing more than proffer verbal guarantees of the freedom of the straits, and that it had not even done that. And he added that it had been decided in the conference over the face of those trying to force them to do so.

Mr. Lloyd George pointed out that certain members of the delegation came from other nations, notably England. Asked whether Great Britain had given up its claim to the straits, he replied: "No, we have hands of some international body, the permanent committee, to decide what to do about the straits problem." He also admitted that there should be no intervention by any other ally, including Great Britain or any other nation "otherwise" than the internationalization of the straits.

Prevent Spread of War

On the general question, the prime minister said that the main policy was to prevent the war from spreading, and that he was confident that the strong measures the government had already taken and were taking would be the best means of prevention.

Mr. Lloyd George denied that British troops had been given either money or arms to the Greeks, or that they had been given any money when they went into Smyrna that they were going "entirely on their own responsibility." He also denied that he had not the necessary power to decide definitely on these items after representations had been made to him.

Turks Lose Courage In Final Play

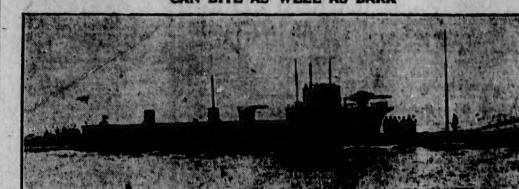

MUDANIA, Oct. 9.—There was distinctly less confidence in the Kemalist camp here today when it became thoroughly understood that there is now complete agreement among the Allies. The plans for dividing the allies having failed, it was realized that Kemal Pasha had the world arrayed against him.

The Greeks also came into line with the three great powers.

Colonel Maloune, commanding General Harrington that Greece would "conform to whatever measures the allied government recommended."

He also assured the commandant-in-chief that in view of security the whole Greek army in Thrace will rally to the support of Great Britain.

Approval is Given to University
Taking Over the Sole Control
From City of 'Scona Hospital

Superlatives of the "K" class are part of the huge British fleet gathered at strategic points to battle against the Turks along the Dardanelles, the Sea of Marmara and the Bosphorus. These are the largest and most powerful submarines in the world, capable of developing great speed on the water, as well as making good time under water.

City Council Accepts Recommendation of Committee—University Will Pay \$150,000—This Covers All Further Charges on City—Ald. Malone Opposes Contract Without Consent of South Side Burghers

Approval of the University assuming sole control of the South Side hospital by payment of \$150,000 to the city was given by the city council Monday night. The finance committee reported in favor of the transaction, and the finance committee of the University gave its endorsement. The city will pay the debt on the hospital, leaving \$85,000 of over-expense not covered. Sinking fund payments up to date amounted to \$56,000, and as maturity this, with interest, would total \$125,000. This left \$18,000 plus \$85,000 not covered. The payment of \$150,000 by the University would cover all the liabilities of the city for the future, and leave it free of all further charges, including the \$90,000.

Ald. Malone stressed the importance of getting the consent of the south side burghers.

He said: "The city might say that the city should give the university for \$180,000 what which would cost \$85,000 to replace."

Ald. Richards: "We are getting our money out of it."

Ald. Richards: "The original cost of the hospital was \$150,000. We are getting a good deal of what was unnecessary."

Ald. Blatchford asked Ald. Malone what he proposed to do.

Ald. Malone said that he was open to disposing of the hospital in

any way without first obtaining the consent of the south side burghers.

Ald. Collier: "But the north side burghers are the ones who bear the burden of the hospital."

Ald. Richards: "The management agreement gave the university the sole control of the university."

ALBERTA PLANS PERMANENCY IN ITS HIGHWAYS

Roads Built This Year Have Been
Inspected as Roads for
Work

Inspection of several strips of roadway made this year under the supervision of the department of public works, with the idea of seeing how they would hold up, was held yesterday afternoon. A report was made by several of the ministers Saturday. Premier D. C. Dunsmuir, however, did not give any statement as to their findings. The roads inspected were those in the vicinity of Edmonton.

No construction work has been done on the roads since the direct supervision of the commissioners of highways, all construction now being done by the department of public works. Commissioner McLean has given all his time to a survey of the highways of the province and it has to date examined 1,000 miles of roads. There are 100,000 miles or so to be examined, and he has said that he will travel still ahead of the commissioners. He has prepared plans and specifications which have been adapted to various types of roads. One of the first things he has done is to get the Dominion government to qualify for a subsidy.

Many roads, such as those between Edmonton and Calgary, Edmonton and Lethbridge, etc., he considers would need a road twenty feet in width and with sufficient crown to accommodate traffic. Many roads already have been constructed with a width of 15 feet, and he has said that where the traffic requires what is called a two lane roadway.

In some cases, where there is a narrow roadway, he would like to make a temporary one-lane roadway, leaving, however, sufficient space between the edge of the roadway and the fence posts to allow for a roadway, when such is required. This would be done by filling in the future time of filling in the ditch and consequently wasting yardage which is not available.

Mr. Dunsmuir is working on a system of permanent roads which will lead to the construction of permanent roads at the least cost.

Black Coal Stock.

Yesterdays was the last of the coal to be taken in stock at the power house from 1918. It is estimated that 100 tons can be secured for 19 cents per ton, less than the present price, which is 15 cents per ton, and comes from Cardiff and 50 cents for slack from the same source. It is estimated that \$20,000 would be saved by this purchase.

Service Station.

There was some more discussion concerning the opening of the service station at 124th Street and Jasper Avenue. Mr. J. A. McLean, representing the oil companies, Mr. Holland, finally, Alderman Ades proposed that the city should not open a station as the city should not hold up business enterprises.

The motion was carried by four votes to three.

Mr. Hare appeared on behalf of oil companies and residents of Fifth Avenue, who wanted a station. The club road, asking if they could be supplied with gasoline. They said that they had no utility bill, and some of them had been paying taxes on their houses. The amount of his taxes amounted to \$4 per month.

He suggested that the city should put up \$100 for each house, but that it was agreed that the city should not do this. After three years the residents there now number 1,000, and the taxes have been covered by these additional oil houses. The residents were in favor of the proposal.

The subject was referred to the engineering committee.

Council adjourned to 4:30 on Thursday.

Mr. East was present after having been absent from the city for a considerable time, due to the illness of his wife.

EXPRESS CLERK GAVE HIS LIFE IN GREAT FIRE

RESCUED TWO CHILDREN NEAR HAL-
LEYBOURG AND LOST CHANCE TO
Escape

MARLBOROUGH, Oct. 9.—Captain Morley Sutherland, one of the outstanding heroes of the fire which destroyed this town last week. He rescued two children from the flames and died in the attempt. During Wednesday morning he fought the fire in the town hall, which soon took fire in the afternoon. He secured a motor car and drove to the scene of the fire, and when he arrived, had left the farm to attend school in Marlborough.

Captain Sutherland, a native of Marlborough, had been a teacher there for 15 years.

The express clerk, as he was known, had been a student at the Marlborough High School for two years.

On Saturday morning he had been

awakened by the roar of the flames.

He got up and dressed and went

out to help fight the fire.

He had just reached the front door

when the building collapsed.

OLIVER SCHOOL IS LEADING IN TOTAL POINTS; HIGH BOYS HOLD JUMP EVENTS TODAY

Cross Country Runs to Be Held This Afternoon May Be Deciding Factor in the Public School Championships—Victoria High School Field Will Be Scene of Competition at 2 p.m. Today

Oliver school is leading in total points for the public school track and field championships following the meet yesterday at the Victoria high school. They have a total of 88, with Molay second with 71, and St. L. Oliver third with 68. The meet was held at Molay school. They have a chance to hold today and may make a change in the standing.

The jumping events of the high school sports will be held this afternoon at the Victoria high school starting at two o'clock, while the full program of competitions will be completed by 5 p.m.

Excellent results were secured in the high school jumping events, particularly in the high jump, where two new records were made. In division A, the record was broken by Clark of Parkdale, cleared 4 feet 4 inches, and a new mark of 4 feet 6 inches was set by Clark. In division C, the record was broken after 18 years and over 95 pounds. A. M. Clark, of Victoria high school, besides being a record was a decided record holder.

HUGGINS WILL HOLD HIS JOB NEXT SEASON

Yankee Owners Say Manager Will Not Be Changed—Ruth in Bad

NEW YORK, Oct. 9.—Miller Huggins will remain the New York American league club in 1929 if he can continue in the position which he has had for the past two seasons.

This was the substance of a statement made today by Col. Jacob Ruppert, president of the Yankees, refusing a report from the west that Huggins would not be retained by the Fox box to manage the local American league club next season.

Running Hop Step and Jump—Distance 13 feet 5 1/2 inches—L. Clark, Parkdale; 12 feet 5 1/2 inches—J. G. Meisinger, King Edward; 4, T. H. Monsonay, Oliver; 3, T. H. Monsonay, Oliver; 4, Montgomery.

"Of course," he added, "we'll have to see what the club wants to do, but I think that shouldn't be difficult."

"Yankees never decrease a man's salary unless he asks for it," he said. "I don't see how these reports originate."

"Do you contemplate taking Babe Ruth?" he was asked.

"We've tried to get a man if we can strengthen the club," the Colonel replied.

From well-informed quarters the Ruth is to be given strict discipline. He was almost a total failure in the 1927 season, and the Yankees believe he did make a pretty showing when he scored 100 runs.

Not only for his work in the world series, but for the way he has stepped himself this season, the reports. Similar stories predict some-thing like this for the 1929 season.

JAMES RAMSEY
LIMITED

Planned for Tuesday--

Sale of 40 Canton Crepe Frock at \$18.95

Reduced from \$25.00

The Frock Sale may hardly be said to have commenced, yet here is a sale of fashionable Canton Crepe models at a price that is much less than women expected to buy silk frocks for.

Forty dresses and you will scarcely find two alike. The flowing style mode is interpreted by all of them. Panels that drop below the skirt hem loose girdles and sashes, steel buckles, lace trimmings and bright colored facings accentuate this effect. Sleeves on some are short, on other three-quarter length.

Two favored colors—black and navy. Sizes 34, 36, 38 and 40.

Reduced from \$25.00, forty dresses only, on Sale Tuesday 9 a.m., at \$18.95.

Two-Tone Sailors \$5.00

Are Very Fashioning

The high crown is of black sailor's plush and is set in full folds of silk crepe—blue, green, blue, orange, or cream. The collared hem is underfaced to match. It is a very striking idea. If you like to wear a tailored sailor, be sure you see this.

Wear Cape Suede Gloves

On Smartest Occasions

If you seek an unusual sleek fine glove come to Ramsey's. We have for you this made-in-France cape suede glove. They have a rich, exquisite appearance that suits them to smartest occasions. Two dome style, in beige, brown and grey, silk embroidered. Sizes 6 1/2 to 7 1/2. \$5.00 pair. (Blue) lined.

Have Narrowed Ankles

Heather Wool Hose \$1.39

Specially Priced

Twin varieties of widened tops and narrow ankles recommend these "Mercury" brand full fashioned all wool hose to women who seek both comfort and smartness.

They are available and come in new heathered micro-tweave, camel, grey, brown, green.
